

World Smart Energy Week OSAKA 2020

Thorough measures against COVID-19

as below will be implemented following the guidelines of the government, municipalities, and exhibition industry associations.

(Photos are measures taken during "World Smart Energy Week 2020" held at Tokyo Big Sight from Feb. 26 to 28, 2020.)

① Require all exhibitors & visitors to wear masks.

Set signboards saying "Wearing a mask is required to enter".

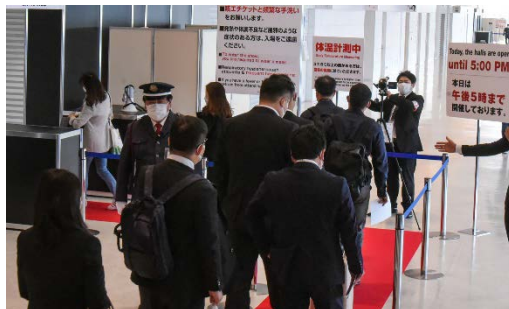

Set "Mask Distribution Counters". (6,182 masks were distributed.)

② Temperature measurement at all exhibition entrances.

Specialised staff are arranged at all entrances.

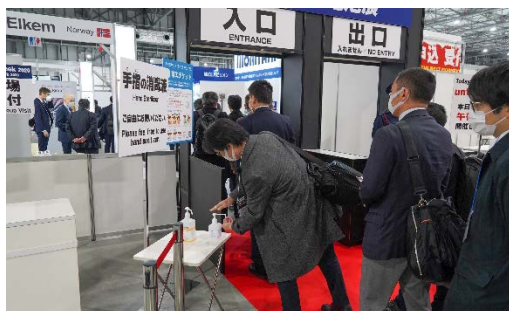

Taking body temperature one by one with thermography devices.

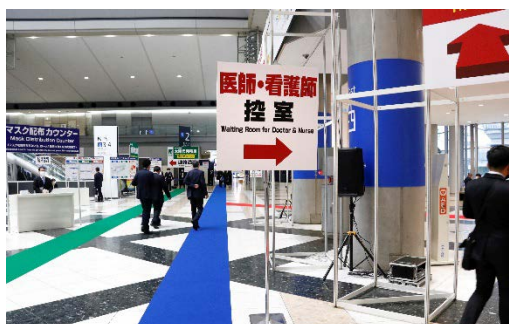

③ Hand sanitisers at all exhibition entrances

Hand sanitisers are set at all entrances for all visitors and exhibitors

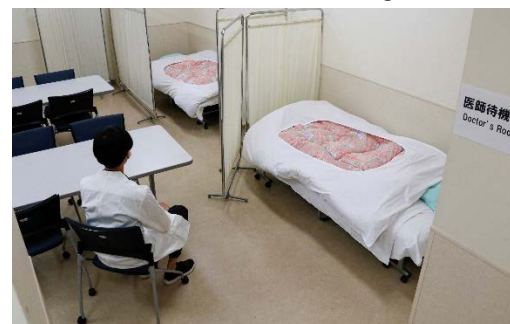

④ Station a doctor and a nurse all time at the venue for emergency.

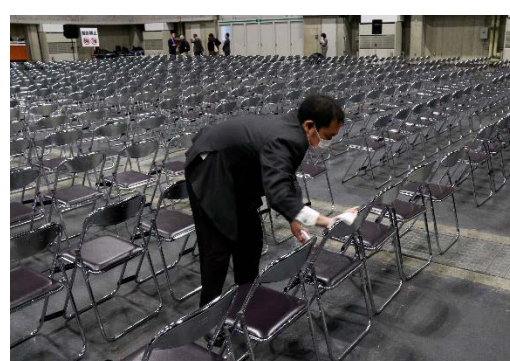

Signboard showing the first aid.

Doctors and nurses are arranged.

⑤ Sterilisation of tables and chairs at seminar rooms.

⑥ "Full-time ventilation of exhibition halls" and "seat distancing at seminars".

*The measures are subject to change depending on the situations.
