Grand Total	JPY																			

Note:

- The basic color of the display tables and wall panels is white.
- Please contact official contractor directly for more details such as exterior frames or for any inquiry to place heavy items on the shelves that exceed the weight limit.
- The standard load capacity is 10 to 15 kg for the display stand and about 5 kg for the two chain hooks. Please contact us in advance, as the load capacity of the display stand can be increased by reinforcement.
- You cannot decorate the walls and display tables in the manner they cannot be restored to their original conditions, such as making holes with nails, screws and thumbtacks, painting the wall panels, etc. Repairing cost shall be charged for such an act, e.g. it costs JPY 21,450/ panel for wall panels.
- Other Items are also available upon request.
- There are no refunds available after the payment.
- Although on-site orders can be accepted, there is no guarantee that your request can be processed. Payment for such orders must be made on-site and in cash only (Japanese yen).

Method of
Payment

Invoice will be issued by the official contractor after the application. Please transfer to the designated account within one week from the issue date stated on the invoice.
All bank charges must be paid by the exhibitor.
The exhibitor will be charged for the bank commission fee. Please choose "OUR(Applicant)" relating to the transfer charge when making an international wire transfer.

1 Regular booth

● Electricity

- **In case of using the Rental Display System, it is not required to submit this form.**
- The Rental Display System includes basic electrical service. In case you need extra lighting, it is required to fill in **"Electrical Service"** to apply.
- If you require extra lighting, note that the additional primary wiring and branch circuit construction is required, regardless of the current wiring circuit construction and electrical consumption.
- Submission after the deadline will incur an additional charge of JPY33,000(tax included) as redesign fee. Also submitted application without electric capacity or the location of main switch box will be incurred JPY33,000(tax included) redesign fee too.
- On-site power capacity modification or On-site breaker relocation will also incur JPY33,000(tax included).

Please contact the official electrical contractor by 3 weeks before the last day of the show, if you need to use electricity in your booth before the supply hours for machine adjustment or trial runs.

The fee is JPY 66,000 (tax included) per company.

Please note that applications submitted after the deadline will not be accepted.

< SUPPLY HOURS >	The 2nd day of move-in	noon – 10:00pm
	The 1st day of the show	8:00am – the end of the show
	The 2nd day of the show	8:30am – the end of the show
	The last day of the show	8:30am – the end of the show

*Include remittance charge in your payment.

● Floor Construction Regulations

1. Installation of Hole-in Anchors

- 1) Anchor bolts installed without application may be charged. If you wish to change the number of anchor bolts (including not to install any) after your application, please submit the application again by noon on the day before the show. No change is accepted after the exhibition.
- 2) Exhibitors planning to install hole-in anchors should submit a detailed drawing of the booth construction, including the number and location of anchors. The hole-in anchor should not be deeper than 60mm and wider than 16mm in diameter, as shown in the images below.
- 3) Actions listed below are strictly prohibited. In case of violation, the exhibitor will be charged for restoration after the show.
 - a) Installing hole-in anchors onto pit covers
 - b) Using materials other than hole-in anchors (concrete screws, nails, etc.)
 - c) Using strong adhesive tape that damages the original state of the floor
 - d) Coloring the floor
 - e) Installing anchors within 200mm from the edge of the pit
 - f) Using inside screw type anchor bolt
 - g) Using anchor bolts other than "Strike Anchors"
 - h) Installing hole-in anchor at Atrium and Linkspace

*Other kinds of anchor bolts including "Drop-in Anchors", "Cut Anchors" and "Sleeve Anchors" are NOT acceptable.

2. Restorations to the Original State

If the hole-in anchors protrude from the floor surface, instead of pulling them out, be sure to cut them off in order to restore the floor to its flat state. It is prohibited to drive hole-in anchors into the concrete with a hammer nor cutting them off with gas.

If such are found, including damaging the floor, the exhibitor will be charged for restoration after the show. Before cutting the anchor bolts, please ensure that there are no combustible materials nearby to prevent fires caused by sparks. It is recommended to wear protective goggles and long-sleeved flame-resistant work clothes to prevent injuries and burns.

■ Hole-in Anchor Installation

■ Restoration

3. Requests for PIT Plan

Please refer to the page of "Inquiries Regarding PIT Plan" in the EXHIBITOR MANUAL – Regulations – and contact RX Japan for PIT Plan.

■ We apply for daily booth cleaning service.

JPY 4,620 × _____ booth(s) = JPY _____

*10% consumption tax is included.

■ We apply for the collection and disposal of remaining materials on the day of move-out.

☐ Yes

☐ No

*The charge of collection and disposal of remaining materials depending on the volume of the remaining materials.
If you wish to apply for this service, please contact the official contractor in advance for the quotation.

■ Notice

- The service charge is JPY 4,620* per 1 regular booth (JPY 2,310* per a mini-booth) for 3 days, including 2nd day of move-in, 1st and 2nd day of the show.
*10% consumption tax is included.
- This service includes basic booth cleaning only and it does not include cleaning or polishing of exhibits, furniture and equipment.
- Exhibitors are responsible for the removal of any large garbage. Thus, any such wastes removed on behalf of the exhibitor will be charged to the exhibitor.
- It is the responsibility of the exhibitor to ensure that all crates, boxes or plywood are removed or stored properly. There is no storage in the exhibition halls.
- The cleaning service is available **by advance order only. On-site orders including move-in period will not be accepted.**

**Method of
Payment**

Payment should be made directly to **the official contractor**. They will visit your booth to collect full payment during the show period.
Cash (Japanese Yen) only. Credit cards are not accepted.

● Handling Fire and Dangerous Materials for Exhibits and Demonstration

1. Application to Fire Department

- According to the Fire Service Act, the following acts are prohibited in the exhibition halls.
 - Use of fire
 - Carrying in hydrogen and demonstration of products using hydrogen*
 - Demonstration generating flames or sparksSpecial permission from the Fire Department is required if you wish to carry out any of the above acts. Please submit the application form before the stated deadline. Any applications made after the deadline will not be guaranteed.
- *For carrying in hydrogen, demonstration using hydrogen or generating flames or sparks, additional documents certifying safety issued by authorised bodies are required. Please submit the application form as soon as possible.
- Inspections will be conducted during the move-in and exhibition period by the Fire Department. Please be aware that if there are any violations to fire regulations such as handling dangerous goods without application or incomplete construction, you will be ordered to remove them. In addition, application submitted after the deadline may not be approved by the Fire Department. Show Management will handle all applications to the Fire Department.
- Prepare 3 copies of booth layout indicating the position of equipment, a catalogue of the equipment, a schedule of demonstration, a calculation report of consumption and quantity of heat released and a material safety data sheet (SDS/MSDS) for application.
- If you do not receive any replies within a week after your application, please contact the official contractor.

2. Guidelines for Application of the Use of Fire

About equipment which involve the use of fire

Only the minimum amount required for exhibiting and demonstration is allowed. If you wish to use fire, permission from the Head of Fire Department is required. Please follow the regulations below in respect of heat consumption and installation.

(I) Use of Gas Facilities

If you wish to use gas, please consult with Tokyo Big Sight in advance for construction and management.

In principle, the combined use of LPG and Town Gas is not possible at the same exhibition hall.

(II) Position of Installation

- 1) For prevention of fire, flammable materials should be kept away from the stairs and emergency exits (refer to the figure below).

- 2) For using cassette stove, flammable materials should not be placed 100cm above and 15cm next to the equipment using fire (refer to the figures below). If it is not possible to leave 15cm space, separate the equipment with fireproof materials from the surroundings. In this case, the equipment should not be attached to the partition wall.

e.g. Distance between the equipment and fireproof materials varies depends on the types of equipment. Please follow the instructions from Fire Department.

e.g. Distance from the Equipment Using Fire

(III) Safety Measures

Please install the equipment using fire (including electric fryer) with measures to prevent any falls during earthquake and outbreak of fire.

- 1) The equipment should be placed at a fixed position which does not easily fall and get damaged due to earthquake or other vibrations of the floor.
- 2) Equipment using gas as fuel should be installed with a device of gas outage due to earthquake or other vibrations of the floor.
- 3) Equipment using gas as fuel must have a gas-leak alarm.
- 4) 1 or more fire extinguisher(s) should be placed in each regular booth (2 capacity unit or above).
- 5) The person in charge of operating the equipment should be at the booth all the time.
- 6) The equipment should be placed at a fixed position that cannot be moved easily by fixing with stopper or lever.
- 7) In order to prevent the sudden rise of temperature of boiling oil, the kitchen equipment for deep-fried food should be installed with a device that shuts down the heat source automatically.

3. Guidelines for Application of the Use of Naked Flame

- (I) Naked Flame includes (a) materials which generate flames or sparks with the usage of gaseous, liquid and solid fuels, and equipment which its heating part is exposed, (b) surface temperature of externally exposed heating electrical equipment is 400°C or above. Using equipment generates fire is also considered as naked flame.
- (II) The position and structure of the equipment using naked flame should comply with the safety standards of the related regulations. It also has to fulfill the following requirements and restrict to the minimum amount needed. Candles or alcohol lamps as decorations are not permitted.

a) Unit of Usage

- For fire prevention, the total heat consumption of gas in each hall has to be under 525kW (regardless of the number of equipment). However, if it exceeds 525kW, the time for the gas use will be limited to keep the total heat consumption under 525kW. If you wish to use gas, please consult with Tokyo Big Sight in advance.
- Equipment using fire should be limited to the minimum amount needed for demonstration in the same booth.

b) Position

- Ensure a safe distance from the surrounding flammable materials in order to prevent fire.
- Ensure a distance of 5m or more from entrance or exit, stairs, dangerous goods and other flammable materials. (excluding cases which effective fire prevention measures taken, such as partitions made of noncombustible materials.)
- Keep the equipment away from the place where the flammable materials may fall down.

c) Safety Measures

- Assign a person in charge of supervision and inspection after use.
- Instruct the staffs for monitoring and firefighting.
- Take measures to ensure the user can extinguish the naked flame easily.
- Place fire extinguisher in each regular booth using naked flame (2 capacity unit or above).
- Select the equipment using fire which is defined and safe in performance.
- Install a fuse cock or gas-leak alarm in the equipment using gas.
- Use metal gas piping and fix to the floor by jointing with screw and flange or welding.
- Use cartridges as the container of LPG (e.g. cassette stove).
- Use pipe to emit the exhaust gas outside the exhibition hall.
- Use fireproof materials to prevent the dispersion of sparkles.
- Restrict to the minimum amount of liquid fuel needed and refrain from refueling during the period of exhibition.
- Restrict to the minimum amount of solid fuel needed for equipment used during demonstration only.
- Take measures to protect the visitors from potential dangers of naked flame.

4. Guidelines for Application of Handling Dangerous Goods

(I) Types of Dangerous Goods

- Dangerous goods include flammable liquid, oxidizing solid and liquid (e.g. gasoline and diesel fuel) according to the Fire Service Act.
- Designated flammable goods include flammable liquid and flammable solid under the Fire Prevention Ordinance (Article No. 65 in Tokyo Metropolitan Ordinance).
- Flammable gas (e.g. propane, acetylene gas, ammonia gas, hydrogen) prescribed in the General High Pressure Security Regulations.
- Gunpowder, pyrotechnics and toy fireworks prescribed in the Explosives Control Law.

(II) Items that application is not required

Application is not needed for the following items if the amount is restricted to the minimum as needed.

- Exhibit stored in a closed container for display only.
- Fuel or lubricant used in the tank of the vehicle for display only.
- Lubricant used in the motors and hydraulic machines for display.
- Oil for cooking and greasing the frying pan. (Deep-frying is not included.)

*The Fire Service Act and the Fire Prevention Ordinance is also applied when the total amount exceeds the prescribed amount even if it is exempted from dangerous goods.

- Carrying in and using storage battery with sealed electrolyte (except use for vehicles) and devices equipped with such battery within the area where is visible to the staff.
- Using storage battery with sealed electrolyte (except use for vehicles) and devices equipped with such battery in the way specified by the manufacturers or importers.

*Application for "Handling Fire and Dangerous Materials for Exhibits and Demonstration" is needed for demonstration of lithium ion battery or device with such battery which is still under modification or development. (except for items which can check how to use in the user manuals)

(III) Installation and Safety Measures

- Assign a person in charge for supervision and inspection after use.
- Place fire extinguisher(s) (with a 2-unit minimum fire extinguishing capability) at the booth.
- Install device to emit the flammable steam outside the exhibition hall.
- Use fireproof materials to prevent the dispersion of flammable liquid.
- Avoid placing the dangerous goods together if they may get ignited easily.
- Refrain from refilling the liquid dangerous goods during the period of exhibition.
- Store the dangerous good in a closed container and keep it separated from the other goods.
- Follow the instructions of the Fire Department regarding the agreement of storing dangerous goods.

5. Demonstration and Display of Vehicles

Application is not required for static demonstrations without starting the engine or charging process. Minimize the amount of fuel inside the vehicle.

Please submit an application if you wish to carry demonstrations include energizing, charging or starting the engine of vehicles with lithium-ion battery installed or hydrogen-fueled vehicles.

Please be reminded that starting the engine of vehicles powered by gasoline or diesel fuel is not allowed. If you are not sure if application is necessary, please consult with the official contractor in advance.

Handling Fire and Dangerous Materials for Exhibits and Demonstration

If you do not receive any contact from the official contractor in one week after the application, please contact them to avoid any oversight.

■ The Use of Naked Flame

Equipment Name (Dangerous Material's Name)	Heat Source	Maximum Consumption (kw/hour)	Number of Equipment	Purpose

When using naked flame, please submit three copies of the picture or the catalogue of the dangerous equipment, and a floor plan indicating the location of naked flame and fire extinguishers.

■ Display of Dangerous Materials (Please refer to the following classification and fill in below.)

First Petroleum: acetone, gasoline Second Petroleum: kerosene, gas oil Third Petroleum: heavy oil, creosote oil Fourth Petroleum: gear oil, cylinder oil

Classification	Name	Quantity	Type of Container	Demonstration	Purpose
First Petroleum					
Second Petroleum					
Third Petroleum					
Fourth Petroleum					
Alcohol					
Other					
Other					
Other					

*Please indicate the weight and the number of each solid fuel such as candles.

*Please submit three copies of an installation floor plan, a catalogue, and a material safety data sheet (SDS/MSDS).

*Please take fixed measures when you bring a cylinder of flammable gas and high pressure gas.

■ The Use of High-pressure Gas

Name/Type	Quantity	Number	Purpose

*Please indicate the quantity and the number of flammable gas materials such as lighters.

■ Cautions

- 1) A person in charge of the booth takes full responsibility for the management of construction, display, and removal.
- 2) An ABC fire extinguisher (type 10 or more) must be installed in a booth.
- 3) A guard must observe the booth all the time in case of unexpected accidents such as fire.

● Carrying-in/Demonstration of Hydrogen

Carrying in hydrogen and demonstration of products using hydrogen are prohibited in the exhibition halls. However, it is permitted if it fulfills the requirements of the fire regulations.

The deadline of the application is earlier than the past years according to the instructions of the Fire Department.

Please submit the application form to the official contractor before the stated deadline. Any applications made after the deadline will not be guaranteed.

*If you do not receive any replies within a week after your application, please contact the official contractor.

1. Application Procedures

2. Caution

- (1) Application is required for carrying in hydrogen storage alloy according to the instructions of the Fire Department.
- (2) Only the minimum amount of hydrogen for daily usage is permitted for carrying in to the exhibition hall. Replenishment of hydrogen during the show period is not permitted.
- (3) Place fire extinguisher at the booth.
- (4) The person in charge for safety should be at the booth all the time, including the move-in period.
- (5) Only products approved in Japan are allowed to use in demonstrations.
- (6) Inspections will be conducted strictly based on the Fire Prevention Ordinance.
- (7) Demonstrations may not be permitted if there is any incomplete document for application.

*Application of demonstrations of generating hydrogen (electrolysis or hydrogen generator), such as hydrogen water server, hydrogen inhaler or beauty products is not necessary.
Such demonstrations in a closed environment that are enclosed by walls or ceilings are prohibited.

If you are not sure if application is necessary, please consult with the official contractor in advance.

APPLICATION FORM

☐ I would like to apply as follows.

Company			
Address			
Person in Charge		TEL	
Person in Charge of Safety		Emergency Number (mobile phone)	
Carrying-in Amount of Hydrogen	_____ kg × _____ tank		
Type of Container	Storage alloy / Mixed gas cylinder / Others ()		
Dangerous Materials other than Hydrogen			
Exhibiting Experience at Tokyo Big Sight	(year) (month) Show Name		

● Ceiling Structure

1. Items which application is not required

(I) For East Halls and South Halls Only

Ceilings which fulfill all of the following requirements.

- a. Ceiling only (pillars are acceptable)
- b. The height of the ceiling is between 3m to 3.6m.
- c. The area of the ceiling is 50sqm or smaller (total 50sqm or smaller for multiple ceilings).
 - * Ceilings over 50sqm are strictly prohibited.

(II) For West Halls Only

- a. Louver and net (both should open for more than 70%)
- b. The depth or width of the ceiling is less than 1.2m with the long side of the booth completely opened.

2. Principles and Conditions of Ceiling Construction

- (I) Construction of ceilings except from the items stated above (1. (II) a. Items which application is not required) or construction of ceilings with walls is only restricted to the purpose of light shielding and dust control of the display. Ceiling structures intended for decorative purposes are not permitted. Ceilings above stockrooms are prohibited.
- (II) After submitting the layout of the booth and consulting with the Fire Department, the exhibitor is obligated to set fire-fighting facilities at the booth. (The exhibitor should bear the expenses of setting the fire-fighting facilities)
- (III) Permission will be granted if (II) is fully done and the inspection of the Fire Department is passed. During the inspection, the inspector will ask for the details of the construction. The person in charge of the construction of ceiling should be at the booth during the inspection in order to get the permission.
- (IV) Additional consultation is necessary for raising the floor for more than 30cm. Please make the consultation at the stage of design.
- (V) Double ceiling is prohibited in any case.
- (VI) If the permission of construction is not granted or any violation is found, the exhibitor should follow the instructions of Show Management to dismantle the ceiling and improve the decorations.
- (VII) Prohibited activities that requires a submission of "Handling Fire and Dangerous Materials for Exhibits and Demonstrations" are not allowed under ceilings.

3. Documents Required and Consultation

- (I) Construction of ceiling except from the items stated above (1. Items which application is not required), consultation with the Fire Department is required. Please attach the following documents with the application.
 - a. A plan and elevation of the booth decoration and a venue map including all booths (indicate the area of the construction of the blackout curtain and the location of the fire extinguisher)
 - b. A detailed drawing with written explanations of the ceiling construction (include the fire-proof label)
- (II) Consultation with the Fire Department may take time. Any applications submitted after the deadline will not be accepted.

Application for Ceiling Structure at the Tokyo Big Sight

1) Exhibition Name: _____

2) Opening Period: _____

3) Venue: Tokyo Big Sight

4) Booth #: _____

5) Type of Structure: Ceiling Structure

6) Purpose of Setting Up Ceiling Structure:

7) The Area and Height of Ceiling Structure: _____ sqm (area), _____ m (height)

8) Materials for Ceiling Structure:

9) Measures for Setting Up Ceiling Structure:

* An ABC fire extinguisher (type 10 or more) must be installed in a booth.

* _____ (Person's name) will be stationed at the booth for observation.

* Black curtains and lighting equipment will be placed more than 10 cm away from each other.

* Anti-flammable labels will be attached at a place that can be seen easily from the surrounding area.

* Other measures, if necessary.

***Please submit flat / elevation plan of your booth and detailed booth plan with description of ceiling construction.**

● Details for Shipping and Handling of Exhibits

1. Freight Forwarder

- a) Submit application form if you wish to choose the official freight forwarder as your forwarder.
In that case, consult with the official freight forwarder about arrival date of your items.
- b) The private forwarder you choose will be responsible for both import and delivery within Japan. Arrange directly with the freight forwarder you employ regarding the cargo / exhibit arrival, delivery of cargo to your booth, sending back your cargo, payment schedule and other details.
- c) Show Management will not accept your goods, cargo, parcel, etc. on your behalf under any circumstances.

2. Shipping and Handling of Exhibits

IMPORTANT

Tokyo Big Sight is NOT declared as a bonded area.

You need to arrange your own shipper / forwarder when you would like to ship out your package.
e.g.) FedEx, UPS, OCS etc.

The following are the two major ways to handle your exhibits from overseas:

1) Import

To import your products, you must submit relevant documents and pay duties/taxes. This enables you to sell and distribute your goods in Japan. Note that duties and taxes paid are not refundable.

Japan Customs has amended import procedures in order to effectively enforce border controls, ensure appropriate tax collection, and secure smooth imports.

<Importer>

The importer has the right to dispose of the imported cargo at the time of import customs clearance, during, and after the exhibition.

An import agency that is only commissioned to handle the procedures cannot act as the importer.

2) ATA Carnet

The ATA Carnet enables you to bring in your products without paying duties or taxes, but your exhibits must be exported again after the show. Goods imported by ATA Carnet are for exhibit only, NOT FOR SALE. All goods must be returned to the place where the Carnet was issued.

<Customs Clearance>

There are some items which cannot be imported before getting the governmental approval (ex. cosmetics, soap, medical solution, etc.). If you intend to import such items, it is essential to consult with your agent or the official forwarder in advance.

*In case the goods are imported personally by hand-carry, exhibitors must individually declare their goods at customs.

3. Temporary Storage of Empty Crates/Boxes

There is no storage space for empty cases, crates and boxes, and Show Management will not provide any. If you require empty crates / boxes for your move-out, please store them properly. Contact the official forwarder, or your own contractor in advance for storage service.

4. Goods Sent to Tokyo Big Sight

1) Consignee (Importer)

The shipment must be consigned to a resident of Japan.

If your residency is not Japan, please consult with official freight forwarder to process customs clearance as your customs house broker.

<The rule of a person who acts as the importer>

1. Under lease contracts, a person who rents and uses the cargo.

(Copy of the contract must to be submitted to customs broker)

2. For consignment sales, a person who sells the cargo by accepting the commission.

(Copy of the sales contract must to be submitted to customs broker)

3. A person who has right to dispose the cargo.

(Copy of the agreement for disposal between the shipper and consignee must to be submitted to customs broker)

Customs broker must submit the contract(s) upon request from customs.

2) Arrival of Goods

Make sure that you or the person in charge is at the booth when your goods arrive. Show Management will not accept your goods on your behalf nor will couriers leave goods in an unattended booth. Also, note that Show Management will not be responsible for any loss or damage to your goods.

3) Box Marking

Make sure that all boxes are marked as below.

For East Hall Exhibitors

Company Name: _____
